EUROTILE WR 602

Water Resistant Latex Modified Tile Adhesive

Latex modified cementitious waterproof adhesive used for permanent fixing of porcelain tiles, Marble, Mosaics and Natural stone for interior and exterior applications especially in permanent wet areas or submerged conditions. EuroTile WR 602 meets the classifications requirements **C2TE S1** According to EN 12004

CERAMIX 2000

General Purposes Tile Adhesive

General Purpose Cementitious Ceramic Tile Adhesive. Recommended for non wet areas.

Available in Grey/White. Packing 5,10,20 Kg.

CERAMIX PREMIUM

Cementitious Premium Tile Adhesive.

Ceramix premium is a polymer Modified Cementitious tile Adhesive with high-quality dry set mortar for fixing of ceramic tiles, porcelain tiles, marble and natural stone on interior surfaces. Available in Grey/White. Packing 5,10,20 Kg.

EUROFIX GOLD

Cementitious Premium Tile Adhesive.

EuroFix gold is a polymer Modified Cementitious tile Adhesive with high-quality dry set mortar for fixing of ceramic tiles, porcelain tiles, marble and natural stone on interior surfaces.

EUROFIX SILVER

Ceramic Tile Adhesive

EuroFix silver is a Cementitious general purposes tile adhesive. It is a cement-based mortar for fixing ceramic tiles and stones for interior applications

BONDEX SILVER

Ceramic Tile Adhesive

Bondex silver is a Cementitious general purposes tile adhesive. It is a cement-based mortar for fixing ceramic tiles and stones for interior applications Available in Grey/White. Packing 5,10,20 Kg.

BONDEX GOLD

Cementitious Premium Tile Adhesive.

Bondex gold is a polymer Modified Cementitious tile Adhesive with high-quality dry set mortar for fixing of ceramic tiles, porcelain tiles, marble and natural stone on interior surfaces. Bondex gold is a polymer high-quality dry set mortar for fixing of ceramic tiles, porcelain tiles, marble and natural stone on interior surfaces.

EUROGROUT LM 801

Cementitious Water Resistant latex modified Tile Joint Grout/Filler

Cementitious Polymer Base Joint Filler/Grout for Ceramic Tiles, Vitrified Tiles and Marble/Granite. Recommended for Internal, Floor and Wall, Wet and non wet areas.

EUROPOXY G 803

Epoxy Germ Proof Stainless Joint Filler

Epoxy resin base germ and stain proof tile joint filler/grout for ceramic tiles, vitrified and marble/granite. Recommended for internal use on floor and wall, wet and non wet areas.

EUROGROUT LM 801-A

Grout Strengthening Additive

EuroGrout LM 801 -A is a high Performance latex Additive for grout and tile joint filler.

EUROSTOP PVC 409

PVC WaterStoper (ICJ, IEJ, ECJ, EEJ)

EuroStop PVC 409 - waterstopper are high grade virgin polyvinyl chloride (PVC). Internal and External PVC WaterStop system for passive protection of expansion, contraction and construction joints in reinforced concrete structures. Packing - Roll.

EUROSTOP SW 412

Swellable Water Bar

EuroStop SW 412 water swellable polymeric hydrophilic profile water-stop. High swell performance waterproof sealing material.

EUROBOND SBR 201

SBR Latex Additive/Bonding Agent

Waterproofing additives/Bonding agent for cementitious systems. EuroBond SBR 201 improves the durability, water permeability, abrasion resistance of mortar and adhesion strength.

Packing-4, 20 & 200 Ltr.

EUROPROOF DPC 421

Damp Proof Course

EuroProof DPC 421 is heavy duty bituminous damp proof membrane. DPC provides a barrier to the passage of moisture or water from the ground water/moisture to the structure.

EUROPROOF LWP 450

Bituminous Weatherproof Protection Coating

EuroProof LWP 450 water base bitumen emulsion is Rubber/fibre reinforced, cold applied, specialised polymer latex modified bitumen with outstanding adhesion, which forms a tough, black, seamless, flexible, water proof membrane. EuroProof LWP ideally suitable for waterproofing on concrete and block foundations and basements, Retaining Walls, Sub structure, ground floor Slabs, basements underground structures.

CEMGUARD PC 400

Cementitious Waterproof - 2K System

Cementitious Acrylic Two Part Waterproofing system. Recommended for Toilets, Bathrooms, Kitchen Floor and wall, Color Grey & White. Packing-20 Kg Kit. (15 Kg powder + 5 Ltr Liquid).

EUROTHANE HP 425

Hybrid Polyurethane Liquid Applied Waterproofing

Polyurethane Liquid Applied Waterproofing system. Recommended for Wet Areas: Toilets, Bathrooms, Roof, Water Tanks. Floor and Wall. Available in Grey/White.

EUROSHIELD PU 411

Polyurethane Liquid Waterproofing-Exposed Areas

Exposed Areas Liquid Applied Waterproofing system. Specially formulated for Exposed Areas. Recommended for Concrete/ Steel Roof and Concrete/Masonry walls Available in Grey and white.

ROOFGUARD 100 - 406

Acrylic Elastomeric Waterproofing Compound

RoofGuard 100 is a specially formulated acrylic resin based elastomeric roof waterproofing compound which has an outstanding durability, UV resistant, resistance to weather and very high degree of flexibility. RoofGuard 100 is applied either by brush, roller or spray.

EUROBOND EP 205

Epoxy Resin Base Bond Kit

Two component solvent free epoxy resin base bond kit, Ideal for bonding, crack repairing and Patching.

Packing-1 & 3 kg kit.

EUROBUILD
CONSTRUCTION SPECIALITY PRODUCTS

STONESEAL 100

Marble/stone Stain Protection Sealer

StoneSeal 100 used as top marble surface sealer and will protect the surface from Water, mineral stains, penetration of chlorides and this preventing moisture and chloride contamination.

Available Packing-1, 4 & 20 Ltr.

WALLGUARD SS 510

External Wall Protection Sealer

WallGuard SS 510 is a single component clear transparent liquid, specially formulated for surface protective treatment of concrete masonry and plaster walls.

LOREM IPSUM

GroutShield GS 519

Grout Protection Sealer

GroutShield GS 519 Penetrative and Impregnating Water Based Sealer is a single component clear, transparent liquid, specially formulated surface penetrative protective treatment for cementitious grouting.

MARBLEX K 11 - 611

Marble/Granite Installation Adhesive

Cementitious Polymer Rich High Build Adhesive for Marble/Granite. Recommended for Floor and Wall, Wet and non wet areas. Available in Grey/White.

EUROTILE LM 603

Cementitious Polymer Modified Tile Adhesive

TILE LEVELING
WEDGES

REUSEABLE JACK
TYPE LEVELLING
SYSTEM

WATER PROOFING
REINFORCEMENT FABRIC

TILE LEVELLING CLIP

TILE SPACER

REINFORCED CONCRETE

EUROREPAIR FBR 710

Concrete Repair Mortar – Fibre Reinforced
EuroRepair FBR 710 is cementitious high strength Fibre Reinforced concrete repair mortar. Repairing of wide range of concrete and masonry. Recommended for concrete columns & beams.
Packing- 25 kg bag.

EUROREPAIR FC 702

Concrete Repair Fair Coat

EuroRepair FC is non-shrink, polymer modified fair coat (0-3 mm) on concrete and masonry, especially in vertical and overhead locations. Recommended for pinholes & honeycombs, and also for finish

EUROCOAT ZR 709

Anti Corrosive Zinc Rich Primer / Coating

Corrosion resistance protection coating for steel and reinforcement bars.
Available Packing-1 & 5 Ltr Kit.

EUROCURE WB 900

Concrete Curing Compound – WaterBased

EuroCure WB 900 is water based curing compound with a daylight reflectance and high curing efficiency even in high temperature conditions.
Available Packing-20 & 200 Ltr.

EUROTOP FC 307

Epoxy Resin High Performance Floor Coat

Eurotop FC 307 epoxy coating for concrete. Eurotop FC 307 forms a hard wearing and abrasion resistant floor finishes for wide range of flooring applications.

AD MIXTURE & PLASTICIZERS

EUROPLAST WPC 70
Waterproofing
Powder Admixture

EUROFLOW P 71
Concrete Plastiziser
Admixture

EUROFLOW SP 72
concrete Super
plastiziser Admixture

EUROMIX IWP+100
Integral Waterproofing
Liquid Admixture

EUROFLEX PU 907

Polyurethane Expansion Joint Sealant

EuroFlex PU 907 is single component polyurethane permanent expansion joint sealant, which provide an excellent flexible and durable joint sealant for all substrates

Color Grey/White.Packing-600 ml Tube

HOLESETT AG 810

Polyester Resin Anchoring Grout

HoleSett AG is high strength corrosion resistant fast setting heavy duty anchoring grout.

Packing- 2 Kg kit. (Pouring Grade and Gun Grade)

HYDROSETT QS 706

Hydraulic Plugging Fast Setting Mortar

HydroSett 706 is hydraulic cement based, rapid setting mortar supplied in powder form. HydroSett 706 will stop water infiltration in less than a minute.

Packing- 10 & 5 Kg. bag

EUROCLEAN RC 904

Rust Remover For Reinforcement Bars & Metal

EuroClean RC 904 is a fast-acting and non-ionic surfactants cleaner that dissolves rust, stains and ingrained dirt on reinforcement bars & metal.

Packing - 1 GAL & 20 Ltr.

EUROCLEAN TC 903

Tile & Grout Cleaning Compound

EuroClean TC 903 is a fast-acting, mild acid based cleaner that dissolves mortar, cement stains and ingrained dirt. Don't Pour Directly to finished surfaces.

EUROGROUT FG 804

Non Shrink Grout

EuroGrout FG 804 Shrinkage compensated high strength free flowing cementitious precision grout.

Packing-25 Kg Bag.

EUROFIX CT 826

Anchoring & Doweling Anchor Cartridge

EuroFix CT 826 used for Permanent fixing of reinforced bars, Anchoring grout for bolts, Handrails, Metal Frames, Dock Sills, Formed holes, located in concrete, brick works, masonry and natural rock, Recommends for horizontal, vertical & overhead applications.

EUROBOND CA 690

Carpet Bond Adhesive

Specialty water dispersion adhesive compound for bonding for the following:-Carpet, Carpet tiles, Textile and latex-foam back, Linoleum sheet and tiles, Acoustic underlay cork and rubber sheet, PUR foam/cork sheet

Homogeneous vinyl sheet and tile.

EUROBOND WPA 666

Wall Paper Bond Adhesive

Premixed synthetic resin based wall paper adhesive. Specially formulated for use with nonwoven and vinyl backed wall papers.

Packing-15Kg Pail

EUROBOND GY 222

Gypsum Compound

EuroBond GY 222 is a multi-purpose joint filler, made of high quality binders and selected non-toxic fillers.

Packing - 20 kg Pail

EUROFINISH XP 955

Stucco Filler/ Putty

Acrylic Resin Based Water Resistant Wall Putty EUROFINISH XP 955 is a premium grade acrylic modified mineral base premixed wall putty

Packing - 18 kg Pail

EUROCREETE SLL 308

Cementitious Self Levelling Underlay

EuroCreete SLL 308 is a Cementitious Self levelling underlay used for levelling of floors before applying modern flooring system. Recommended to apply primer EuroBond SL 207 prior to self levelling.

EUROPATCH 7000 - COARSE

Coarse Putty

It is wall putty specially developed as a base coat to cover unevenness and pinholes in plastered surface to make the walls/ceilings ready for final application. As it is white, it can be treated as a base coat for putty. It contains finest quality mineral, white cement and polymers.

EUROCOAT RC 2000 - 920

Plaster Rush Coat

EUROCOAT RC 2000 Mortar is a premium grade polymer modified cementitious premixed mortar for key coat applica-

EUROCOAT RC K11 - 921

Concrete Rush Coat

EUROCOAT RC K11 Mortar is a premium grade polymer modified cementitious premixed mortar for key coat application to concrete surfaces .Suitable for interior and external

EUROPATCH 7000

Cement Based Polymer Modified Wall Care Putty

EUROPATCH 7000 is a premium grade polymer modified cement based wall putty.
Packing - 20 & 40 Kg bag.

LIGHTCREETE 911

ALC Block Installation Mortar

BLOCKCREETE 919

Ordinary Cement Block Laying Mortar

LightCreete 911 mortar is a premium grade polymer modified cementitious premixed mortar for aerated lightweight block installation. BlockCreete 919 mortar is a premium grade polymer modified cementitious premixed mortar for ordinary block installation
